

REMARKS

This amendment is being filed prior to payment of the issue fee. Entry of the foregoing amendment is respectfully requested. The amendment is required to remove legal phraseology from the Abstract of the Disclosure. The amendment does not change the scope of the claims. Accordingly, entry of the amendment is requested.

An Information Disclosure Statement (IDS) was inadvertently filed on December 7, 2005, in the above-identified application, that should have been filed in U.S. serial number 10/804,093.

The IDS has now been re-filed in the correct application, 10/804,093, and should now be removed from the instant application with an update to the PAIR system removing the December 7, 2005.

It is believed that no fees are due in connection with this Rule 312 amendment. In the event this is not correct, the undersigned authorizes the Commissioner to charge Deposit Account No. 19-0741.

Respectfully submitted,

Date July 18, 2006

ABSTRACT OF THE DISCLOSURE

To provide a portable information terminal device, in which the target information can be retrieved immediately although the operation of a preparatory stage for displaying the desired information is simple, and a telephone display method by this device. A display order deciding means (148) unit decides the display order upon displaying a telephone directory on the basis of setting if the telephone directory is displayed in the display order in response to a usage frequency or in the alphabetical order by a learning function setting means (142) unit, the information about the number of callings stored in a count storing means (145) unit, setting of the display mode of the telephone directory (by a day of the week) by a display mode selecting means (146) unit, and the information of a day of the week that is recognized by a day recognizing means (147) unit, and manages it in a display order managing unit (17). Upon displaying the telephone directory, an information display means (149) unit displays the information that is managed by the display order managing unit (17).
